Mike,

Yes, will provide. We asked for this yesterday at the brown bag and they agreed to provide now. They said that they typically provide this info. at the time of a final report, however will provide now if we want.

Charlie,

Can you provide these items:

1. The IAQ sampling plan that includes the locations to be sampled including blank & control sampling, number of samples taken per constituent
2. Sampling Methodology used (specific method that is followed and referenced) for EACH constituent.
3. Anticipated turn around time for samples
4. Anticipated start and stop times for sampling

I am briefing Rick today on the IAQ and want to ensure him we have these things.

Mike
